

Wasser-Geräte is an official Member of OMS-Group e.V.

01.08.2020

We invest a large part of our strength in the development of new products with a focus on radio remote reading, which is why Wasser-Geräte GmbH one of the leading companies in developing and manufacturing water meters.

Being a member of the OMS-Group e.V. shows that we are a forward-looking business which actively supports and encourages the marketing and further development of OMS.

We focus on transparency on the market and guarantee the flexibility of our customers through a multi-compatible communication system for future-proof measuring systems.
